Dear First Nations University of Canada Graduate,

Over the past weeks as the dates for graduation photos approach, I have been closely monitoring the news as related to the COVID-19. As the virus continues to spread at an escalated rate it is now time to focus on our own health and wellness and that of the community.

Despite measures of enhanced cleaning protocols, having a graduation portrait requires very close physical distancing as I arrange the graduation hood into the appropriate position. Consequentially my services are currently being restricted. The decision to temporarily suspend sessions comes as a result of the publicly stated guidelines from Saskatchewan Health Authority and the recent Government of Saskatchewan directives.

I look forward to the opportunity to create your graduating portrait when things return to normal, once our provincial and federal governments deem safe to do so.

I hope you stay healthy in this time of uncertainty.

Sincerely,

Murray - Cornerstone Photography
