Celebrate the Achievement with Graduation Portraits

Special arrangements have been made for graduates to be photographed, to create for the First Nations University of Canada, your official portrait.

There is no charge directly to have this photograph taken. You may however wish to purchase photographs for your personal use, and in this case a payment will be required at the time the photograph is taken.

To be included in the FNUUniv graduating class composite and to have the option of purchasing your own graduation portraits, the following photo sitting options have been arranged for your convenience.
