

At BASF, we create chemistry through the power of connected minds. By balancing economic success with environmental protection and social responsibility, we are building a more sustainable future through chemistry. As the world's leading chemical company, we help our customers in nearly every industry meet the current and future needs of society through science and innovation.

We provide a challenging and rewarding work environment with a strong emphasis on process safety, as well as the safety of our employees and the communities we operate in and are always working to form the best team—especially from within, through an emphasis on lifelong learning and development.

And we are constantly striving to become an even better place to work. BASF has been recognized as one of Canada's Best 100 Employers in 2021 and was honored as one of Canada's Safest Employers Award. Come join us on our journey to create solutions for a sustainable future!

Canola Seed Production Summer Associate

Our Certified Seed Production Team is looking for positive and energetic Summer Associates to join its team for the summer (May to August).

As a Canola Seed Production Associate, you are required to travel within your assigned region and manage your schedule to ensure completion of individual and team goals.

Contract Duration : 4 - 6 months (Summer)

Location: Lethbridge, AB

Responsibilities:

- Work with growers within your assigned regions in the production of InVigor canola for market.
- Involved in all aspects of seed production from seeding to harvest including:
 - Monitoring the health of the crop as it matures
 - Scout fields for weed, disease, and insect pressure
 - Directly involved in maintaining relationships with growers
 - Providing agronomic advice in relation to certified seed production under the recommendation of the Production Agronomist.

Ingredients for Success: What We Look For in You...

- Agronomic knowledge attained through pursuing your degree in Agriculture or through another college combined with experience in the Agriculture industry.
- Attention to detail in delivering results.
- Strong interpersonal and communication skills.
