ARTICLE 1 – PREAMBLE

1.1 The Parties to the agreement recognize that the First Nations University of Canada is a unique, First Nations-controlled educational institution, whose objectives include service to First Nations communities, and the promotion, preservation, protection and interpretation of First Nations histories, languages, cultures, and artistic heritages, using Indigenous and non-Indigenous ways of knowing and understanding. As well, First Nations University of Canada is founded upon, and operates with, the guidance and blessing of First Nations’ Elders.

The First Nations University of Canada embodies the values and aspirations of First Nations peoples to achieve education of quality within a uniquely First Nations environment. The University seeks to promote, for all members of the University family, the development of spirit, body, mind and sense of community.

1.2 The Parties agree to work together for these goals, to promote harmonious relations, and to settle any misunderstandings and disagreements peacefully, in the spirit of the traditional First Nations values of tolerance, humility, mutual respect, and sharing.

1.3 This Collective Agreement sets forth the terms and conditions governing the employment by First Nations University of members of the First Nations University academic staff and is binding upon the Parties signing it. The Parties agree:

- a) to affirm the principle of First Nations jurisdiction over First Nations University;
- b) to support, and to encourage the right of First Nations to exercise their inherent right to govern their own affairs.

1.4 The Parties acknowledge that each is committed to carrying out their responsibilities to each other under this agreement in a fashion which promotes harmonious relations and in a spirit of tolerance, humility and mutual respect consistent with the right of First Nations to govern their own affairs.

The Parties agree to act according to the principles of natural justice (procedural fairness).

ARTICLE 2 - ACADEMIC FREEDOM AND RESPONSIBILITIES

2.1 Preamble

The First Nations University of Canada is a unique institution in both philosophy and mandate and, as such, has a distinct responsibility to safeguard and promote academic freedom. It is the policy and intent of the University to revise this statement of Academic Freedom as our collective wisdom grows.

The University recognizes:

- that freedom to discover and disseminate knowledge and understanding through research and teaching is fundamental to the advancement of wisdom, and that such freedom is basic to the protection of the rights of the students in learning, and the rights of the teacher in teaching;
- that academics have the duty and the obligation to be responsible and sensitive to the academic and First Nations communities they serve;
- that a unique approach to defining the First Nations perspective, both as an object of study in itself, and as the central life force of the institution, demands an ethic of sensitivity which must be broadly shared and upheld;
- that works of art and scholarship, that sometimes question accepted values and are, therefore, prone to censure through time, must be protected.

2.2 Academic Freedom - General Policy Statement

Academic freedom is essential to the teaching, research, scholarship and community development functions of the University. The University will defend the academic freedom of members from interference from any source; however, the University will not be held accountable for infringements of academic freedom originating beyond the control of the University.

- 2.2.1 The University recognizes that freedom to discover and disseminate knowledge and understanding through research and teaching is

fundamental to the advancement of wisdom, and that such freedom is basic to the protection of the rights of the students in learning and the rights of the teacher in teaching.

2.2.2 The parties agree to continue their practice of upholding, protecting, and promoting academic freedom as essential to the pursuit of truth and the fulfilment of the University's objectives. Academic freedom includes:

- the freedom of academic staff members to examine, question, teach, and learn;
- to disseminate their opinion(s) on questions related to their teaching, professional activities, and research both inside and outside the classroom;
- to pursue without interference or reprisal, and consistent with the time constraints imposed by their other University duties, their research, creative or professional activities, and to publish and make public the results thereof;
- to have the worth and validity of academic works judged by their peers and Elders in committee, rather than by political interest groups and individuals.

Academic staff members shall conduct their activities with due and proper respect for the intellectual property of First Nations peoples and communities, including, but not limited to, knowledge, ways of knowing, practices, and traditions, for the academic freedom of others, and without contravening the provisions of this agreement.

2.2.3 Academic freedom does not require neutrality, nor does it preclude commitment on the part of the individual. Rather, academic freedom makes such commitment possible. However, academic freedom does not confer legal immunity, nor does it diminish the obligations of members to meet their duties and responsibilities.

2.2.4 Members of the University academic community are entitled to

enjoy freedoms essential to teach, to conduct research and to publish the results thereof, freedom to initiate and to enter into dialogue and discussion in areas of interest and competence, as well as freedom to examine, evaluate, and make critical commentary on matters pertaining to, and subject to, the rigors of academic inquiry.

- 2.2.5 Each academic staff member is entitled to freedom from institutional and political censure in conducting his or her activities relevant to the carrying out of his or her duties as set out in Article 18 – Performance of Duties of this agreement.
- 2.2.6 In activities in the community at large, academics may not purport to represent the University unless specifically authorized to do so by the President.
- 2.2.7 The University will endeavour to ensure that time and resources are made available to members of the academic community to contribute to the growth of knowledge and to carry out research needed by the First Nations community.
- 2.2.8 The University will endeavour to provide structural support such as institutional autonomy, permanent employment status, an academic forum, representative peer committees in areas such as academic freedom, rank and promotion, grievances, and ethics.

2.3 **Academic Responsibilities**

- 2.3.1 All academic staff members shall undertake their duties with due regard to standards and procedures collegially agreed to, the academic requirements of the University community, the reputation of the University community, and the obligation to base research and teaching on an honest search for knowledge.
- 2.3.2 Academic staff members have the duty and the obligation to be respectful to the First Nations communities they serve.
- 2.3.3 Academic staff members have a duty to maintain an ethic of

sensitivity, which must be broadly shared and upheld, when developing a unique approach to defining the First Nations perspective, both as an object of study in itself, and as the central life-force of the University.

2.3.4 Members of the University academic community shall exercise their rights and freedoms with an ethic of sensitivity, encompassing the following understandings:

- a) that First Nations traditional methods and protocols for researching and disseminating knowledge and understanding be recognized as valid;
- b) that academic staff members have the right to research, preserve, and promote knowledge in ways consistent with both First Nations and non-First Nations paths to knowledge.

2.3.5 Academic staff members shall discharge their responsibilities in accordance with established University and relevant University of Regina procedures.

2.3.6 Academic staff members have the responsibility to maintain a close working relationship with Elders.

2.3.7 Academic staff members have the duty and responsibility to treat students with dignity and respect, free from harassment, which includes, but is not limited to the following:

- a) shall avoid all forms of discrimination;
- b) shall disclose any conflict of interest or other circumstances known to them which may reasonably introduce or appear to introduce bias into their academic judgement or administrative decisions;
- c) shall not accept remuneration from students;
- d) shall refrain from improperly divulging confidential personal

- b) shall not allow personal or business relationships to interfere with any decisional or evaluation process involving colleagues;
- c) shall maintain as confidential any information about colleagues obtained through the exercise of administrative duties, other peer committees, or otherwise obtained on a confidential basis;
- d) shall not inhibit the free exchange and dissemination of ideas or information, nor deliberately interfere with any colleague's performance of workload duties;
- e) shall avoid all forms of discrimination.

Academic staff members recognize the contribution other employees of the University make to the University community and their obligation to treat these other employees as colleagues and shall, consequently, observe toward them the same norms as referred to above.

2.4 **Ethical Conduct in Research and Scholarship**

Ethical conduct in academic research and scholarly activity means:

- 2.4.1 No fabrication, falsification or plagiarism;
- 2.4.2 Recognizing by due acknowledgement the substantive contributions of others;
- 2.4.3 Obtaining the permission of an author before making significant use in any publication of new information, concepts or data obtained through access to manuscripts or grant applications during a peer review process;
- 2.4.4 Only attributing authorship to persons who have participated sufficiently in the work;
- 2.4.5 Not submitting for publications articles originally published elsewhere, except where it is clearly indicated in the published work that the publication is intended to be a republication;

- 2.4.7 Complying with relevant federal or provincial statutes or regulations for the protection of researchers, human subjects, or the health and safety of the public, or for the welfare of laboratory animals;
- 2.4.8 Meeting other relevant legal requirements that relate to the conduct or reporting of research and scholarly activity;
- 2.4.9 Revealing material conflict of interest to sponsors or to those who commission work, or when asked to undertake reviews of research grant applications or manuscripts for publication, or to test products for sale or for distribution to the public; and
- 2.4.10 Revealing to the employer any material financial interest in a company that contracts with the employer to undertake research, particularly research involving the company's products or those of its direct competitors, or to provide research-related materials or

services. Material financial interest includes ownership, substantial stockholding, significant honoraria or consulting fees, but does not include routine stockholding in a large publicly traded company.

2.5 Responsibilities Specific to Academic Staff Members

- 2.5.1 Academic staff members have a responsibility to carry out their duties in accordance with Article 18 - Performance of Duties.
- 2.5.2 Academic staff members have a responsibility to abide by policies and procedures of the University.

ARTICLE 3 – MANAGEMENT RIGHTS

The Parties recognize the right of the employer to plan, coordinate, and direct its resources, assign duties and manage the affairs of the University except as limited by the provisions of this Agreement, applicable legislation and jurisprudence.

The employer agrees to exercise these rights in a manner that is fair, reasonable, and equitable.

ARTICLE 4 - AFFIRMING DIVERSITY WITHIN A FIRST NATIONS INSTITUTION

- 4.1 The Elders affirm that the Creator gave different forms of culture and expression to different peoples, and that these forms are all equally valid. Furthermore, they recognize individuals and groups are enriched through the sharing of their cultural knowledge. In recognition of the mission of the University, the parties to this agreement are committed to pursuing diversity in employment and are committed to the principles of employment equity.
- 4.2 In accordance with the mission of the University and Section 48 of *The Saskatchewan Human Rights Code*, the Parties recognize that First Nations are vastly under-represented in the workforce and are committed to employment preference for First Nations and other Indigenous persons when recruiting, hiring, and retaining staff.
- 4.3 The Parties are committed to providing an environment that affirms and promotes First Nations cultures and values, and the dignity of human beings of diverse backgrounds and needs. The Parties agree that it is necessary to achieve and maintain balance and establish a strong First Nations presence within the University at every level.
- 4.4 When recruiting academic staff members, the University will ensure that all advertisements reflect the University's commitment to the hiring of First Nations and Indigenous persons, and to employment equity; as well as ensure whenever possible that search committees have appropriate First Nations and gender representation, and an observer from outside the unit present during the deliberations.
- 4.5 The University will undertake appropriate steps to redress historic imbalances in representation for any of the designated groups. The parties agree that appropriate steps include, but are not limited to, advertising and making appointments, and will not be deemed a violation of this Collective Agreement.
- 4.6 In the process of recruitment, each department will explicitly consider each of the above factors.

ARTICLE 5 - RESPECTFUL UNIVERSITY

5.1 **Preamble**

Harassment and discrimination are, fundamentally, a selective denial of the basic human right to be treated with dignity and respect. Neither harassment nor discrimination will be tolerated or condoned and the University will take all reasonably practicable steps to ensure employees, students and members of the University community (including individuals employed directly or indirectly at the University, students, volunteers and visitors) are subjected to neither harassment nor discrimination, and will take all reasonable steps to prevent this type of behaviour and to stop it if it occurs.

The Parties are committed to providing an environment that affirms and promotes First Nations cultures and values. The Parties are additionally committed to creating, promoting, and maintaining a positive environment for working and learning that is free from discrimination and harassment, honours the teachings of our Elders, and complies with *The Saskatchewan Human Rights Code*, and *The Saskatchewan Employment Act* and *Occupational Health and Safety Regulations*, or other applicable legislation.

5.1.1 No person shall intimidate, retaliate against, coerce or impose any penalty, loss or disadvantage upon any person on the grounds that that person has made or may make a complaint, disclosure, testimony, or has participated in any way during the Respectful University process.

5.1.2 **Faculty Association Representation**

All members of the Faculty Association are entitled to be accompanied and represented by the Faculty Association at any point in matters pertaining to harassment or discrimination under this Article. The Employer shall advise any members of this right, whether the member is a complainant, respondent, or witness in any process, including referral to the Respectful University Policy and Procedures or any discipline process as a result of a complaint.

5.2 Respectful University Policy

The University is committed to maintaining a policy and procedure that will prohibit all forms of discrimination and harassment and ensures that all members of the University community have the right to participate equally in activities of, or at, the University without fear of discrimination, harassment, or reprisal.

A formal complaint under any other University policy or collective agreement article may trigger the Respectful University Policy. Nothing in this policy will prevent academic staff members from seeking redress through the grievance or arbitration procedures of Article 23 - Grievances, or any other recourse allowed by law. Any changes to this Policy and procedures will only be made in consultation with the Occupational Health and Safety Committee and upon notification to the Faculty Association.

This policy and the provisions of this Collective Agreement shall apply to risks, threats and incidents of discrimination or harassment that occur: on University premises; on any other work and study sites under the University's control; during the course of any University sponsored event; and, to conduct not on University premises that has an identifiable and substantial link to the University, or that affects the University working or learning environment, including but not limited to conduct through social media and public websites.

5.3 No Harassment

5.3.1 Personal Harassment or Bullying

Personal harassment is not based on any of the prohibited grounds. It is sometimes referred to as bullying.

Personal harassment involves repeated conduct or a single, serious incident that causes a lasting harmful effect on the employee.

Examples of personal harassment include, but are not limited to: verbal or written abuse or threats; exclusion; insulting, derogatory or degrading comments, jokes or gestures; personal ridicule or malicious gossip; unjustifiable interference with another's work or

work sabotage; refusing to work or co-operate with others;
interference with or vandalizing personal property.

5.3.2 **Harassment Based on Prohibited Grounds**

The Parties agree there shall be no harassment on the basis of any prohibited grounds set forth in *The Saskatchewan Human Rights Code* (subject to pension and benefits provisions) and *The Saskatchewan Employment Act*.

The Saskatchewan Employment Act defines harassment as: any inappropriate conduct, comment, display, action or gesture by a person:

- (i) that either:
 - a) is based on race, creed, religion, color, sex, sexual orientation, marital status, family status, disability, physical size or weight, age, nationality, ancestry or place of origin; or
 - b) subject to subsections (4) and (5), adversely affects the worker's psychological or physical well-being and that the person knows or ought reasonably to know would cause a worker to be humiliated or intimidated; and
- (ii) that constitutes a threat to the health or safety of the worker.

This type of harassment also extends to sexual harassment. Sexual harassment may be verbal, physical or visual. It is always unsolicited and unwelcome behaviour, and can take many forms, which include, but are not limited to:

- a) A direct or implied threat of reprisal for refusing to comply with a sexually oriented request;
- b) Sexual remarks; jokes with sexual overtones; a sexual advance or invitation; displaying offensive pictures or photographs; threats; leering; physical contact like touching, patting, pinching, or brushing against; sexual and physical

assault; unwelcome physical contact; unwelcome invitations or requests, direct or indirect, to engage in behaviour of a sexual nature, refusing to work with or have contact with employee/students because of their sex, gender or sexual orientation.

- 5.3.3 Harassment does not include any reasonable action that is taken by an employer, or a manager or supervisor employed or engaged by an employer, relating to the management and direction of the employer's workers or the place of employment.

5.4 **Discrimination**

- 5.4.1 Discrimination is the harmful treatment of an individual or group, based on certain personal characteristics. The Parties agree that there shall be no discrimination practised by reason of age, ancestry, race or perceived race, creed, colour, nationality, place of origin, political or religious affiliation or belief, sex, sexual orientation, gender identity, marital status, family status, physical or mental disabilities (except where accommodation of which would satisfy the threshold of undue hardship), receipt of public assistance, and membership or activity in the Association.

- 5.4.2 Further, the Parties agree that there shall be no discrimination practiced with respect to any academic staff member by reason of family relationship. The Parties agree that no academic staff member or officer of the University shall take part in formal discussions regarding the application, or the terms and conditions of employment, of a member of that person's family.

- 5.4.3 In accordance with the obligations of employees under *The Saskatchewan Human Rights Code*, no employee shall discriminate against another employee on the basis of a prohibited ground.

5.4.4 **Systemic Discrimination**

The Parties are committed to the identification and elimination of

systemic discrimination in the workplace. Systemic discrimination occurs when structural barriers or widespread stereotypes and assumptions bar certain groups of people from full participation in activities covered by *The Saskatchewan Human Rights Code*.

5.5 Duty to Accommodate

- 5.5.1 The Parties recognize their joint duty under human rights legislation to provide reasonable accommodation in the workplace to academic staff members with disabilities. This duty applies to all characteristics identified in *The Saskatchewan Human Rights Code*, and includes but may not be limited to, disabilities, family status, pregnancy, ancestry, and religion.
- 5.5.2 The University will maintain a policy or procedure on the duty to accommodate that clearly lays out the responsibilities of the employer, union and worker seeking accommodation that will only be altered in consultation with the Occupational Health and Safety Committee and upon notification to the Faculty Association.
- 5.5.3 The University, the Faculty Association, and the academic staff member agree to make every effort to obtain suitable modified or alternate employment to academic staff members who are temporarily or permanently unable to perform or return to their regular duties, as a consequence of a disability, illness or injury, or due to other circumstances identified in *The Saskatchewan Human Rights Code*. In such circumstances the Faculty Association and the University may agree to waive certain provisions of this Agreement. All parties shall work cooperatively to foster an atmosphere conducive to a successful return to work or accommodation.
- 5.5.4 Once requested by an academic staff member, or the Faculty Association on their behalf, the University will provide for accommodation of members who face barriers at work related to human rights grounds without undue delay.
- 5.5.5 The University will do everything reasonably practicable including, but not limited to, modifying the workplace and workstations,

modifying shifts and schedules, adapting equipment, restructuring duties, and providing other supports and taking other steps to accommodate academic staff members up to the point of undue hardship. Undue hardship is generally defined as an unbearable financial cost or a considerable disruption to business, or an interference with the rights of others.

- 5.5.6 The definition of disability will be viewed broadly to include disabilities that are physical, mental, developmental or learning; temporary, episodic or permanent; evident at birth or acquired later in life; and acquired at work or elsewhere.
- 5.5.7 The Parties will respect the right to privacy of the worker seeking accommodation, to the extent possible. Any documentation pertaining to an academic staff member's workplace accommodation shall be kept in a file for this sole purpose, and shall not be retained in an academic staff member's official file.
- 5.5.8 The Parties agree that the member seeking an accommodation has a duty to disclose the obstacles to employment resulting from their disability or other protected circumstances requiring accommodation, but not the diagnosis of their disability. In addition, academic staff members will cooperate with rehabilitation efforts, work within restrictions, and accept reasonable proposals for accommodation.
- 5.5.9 The parties will cooperate with each other to the fullest extent possible in all accommodation matters.

5.6 Grievability

The provisions of this Article do not limit or amend the provision of any collective agreement, and are not intended to discourage or prevent someone from pursuing a complaint with the *Saskatchewan Human Rights Commission*, *Occupational Health and Safety*, or via any other legal avenues available.

An academic staff member pursuing a complaint pertaining to discrimination or harassment under this Agreement, University policy, or any applicable

legislation shall be entitled to request representation by the Faculty Association at every stage of the dispute resolution process.

5.7 Reconciliation

At any time in the process reports of discrimination or harassment can be resolved using formal or informal approaches.

Approaches to reconciliation may include consultation, talking circles, other traditional First Nations approaches to conflict resolution or mediation, formal investigations, grievances, and arbitration.

5.8 Expedited Grievance

The Faculty Association shall have the ability to commence grievances alleging a violation of this Article at Stage II of the Mechanism for Dispute Resolution detailed in Article 23 - Grievances.

5.9 Safe Workplace

The employer shall endeavour at all times to ensure that members who initiate a complaint under this article are not unduly displaced from their workspace or area as a result of any action by the employer in the investigation or dispensation of actions under the Respectful University Policy and Procedures. If these actions create a potential unsafe workspace, the employer will immediately rectify the situation; if members need to be removed from the physical space, the employer will consider the relocation of the respondent first. Alternatively, an academic staff member who believes that an alleged violation of this Article creates an unsafe workplace shall be entitled to request a change of physical space or other accommodations without fear of reprisal.

5.10 Academic Freedom

5.10.1 This policy shall not be interpreted, administered, or applied to infringe the academic freedom for academic staff members (as defined by Article 2 – Academic Freedom). The frank discussion of ideas, the pursuit and publication of research, and the study and

teaching of material with controversial content may not constitute harassment.

- 5.10.2 The Parties further agree that there shall be no discrimination or harassment practiced with respect to any academic staff member who, in a professionally responsible manner, expresses disagreement with the University's policies and practices.

ARTICLE 6 – RECOGNITION

6.1 Scope

The University recognizes the Faculty Association, which is a member of the Canadian Association of University Teachers, as the exclusive bargaining agent of the members of the bargaining unit, as defined by the Certificate of the Saskatchewan Labour Relations Board dated at Regina, Saskatchewan, on the eighteenth day of December A.D. 1990, as may be amended from time to time by the said Board or by mutual agreement of the parties to this agreement.

The University hereby agrees to negotiate with the Faculty Association any and all matters pertaining to working conditions, hours of work, classification, scale of wages, benefits, and any other matters mutually agreed to.

6.2 Contracting Out

While fully recognizing the spirit and the provisions of Articles 7 – Academic Planning, 14 - Appointments, 15 – Appointment Categories, and 16 – Nature of Appointments, the University may enter into an agreement with a corporation, organization, or agency for the teaching of credit classes, on a temporary basis, where such services are not available through the normal procedure of hiring individuals personally.

The University will inform the Faculty Association of all contracting out arrangements at least one week prior to the first day of classes of each semester, except in unusual circumstances

The information will contain the following: a list of all previous contracts with this contractor within the last five years, the class or classes to be taught, the qualifications of the person or persons who will do the teaching, and the contract price.

In cases where, due to exceptional circumstances, the University cannot get the information about the contract to the Faculty Association in the time stipulated above, the information will be sent as soon as possible, with a full explanation of the reason for the delay.

Arrangements to contract out to a corporation, organization, or agency for the teaching of credit classes are subject to approval by the Faculty Association. The Faculty Association will normally approve all contracting out arrangements which have been approved on three previous occasions. In all cases the approval shall not be unreasonably withheld. In making its decision the Faculty Association may take into account the decisions of academic departments of the University.

- 6.3 The University may contract with persons for teaching of credit classes on a Sessional Lecturer basis.
- 6.4 The University may arrange or facilitate for the secondment of an employee from or to another place of employment, with the approval of the Faculty Association. Such approval shall not be unreasonably withheld.

ARTICLE 7- ACADEMIC PLANNING

- 7.1 The University and the Faculty Association recognize the importance of the University engaging in a planning process to permit the University to fulfil its obligations. Such planning shall be undertaken in a spirit of collegiality, with open communication consistent with First Nations values. The parties recognize that such planning involves the need for flexibility in the allocation of resources, consistent with fair treatment of academic staff members, and in accordance with the provisions of this collective agreement.

The parties agree that annual and long range planning is essential to the proper functioning of the University, and to the ability of the University to provide programs which fulfil the needs of the communities and students which it serves. The parties agree, therefore, that it is mutually desirable that both annual and long range planning take place in consultation with Faculty.

7.2 Consultation in Committee

Consultation in committee, wherever it appears throughout the collective agreement, means that the consultative process shall include, but not be limited to, the following elements: meetings scheduled at a reasonable hour and location; agendas circulated and minutes kept; secret ballots as needed, such as for elections; and, a reasonable effort to consult those who are absent from campus.

The department, or equivalent unit, at a consultation in committee, may decide to establish a standing committee which shall have specified authority to act on its behalf in certain matters. Such a standing committee shall have terms of reference agreed to by the department or equivalent unit, in consultation in committee, and these terms of reference shall address such matters as the scope, purpose, and selection of the standing committee, quorum, minutes, and similar matters. Terms of reference for such a standing committee may be changed, or eliminated, by action taken at a consultation in committee of the department or equivalent unit as a whole.

- 7.3 When implementing a significant academic planning initiative, service, or program, Associate Deans shall give due consideration to the staffing complement and the workload associated with its implementation.

- 7.4 Any policies and procedures developed by the University shall be fair, transparent, and consistent with the terms of the collective agreement. The University shall consult with academic staff members of changes to policies, or new policies affecting them and shall inform the Faculty Association of changes to policies, or new policies.

Academic staff members shall not be censored or disciplined by the University for criticizing University decisions or policies. This stipulation does not override academic staff members' responsibilities as defined in Article 2.3. When offering criticism, academic staff are still expected to comply with University policies.

another. 15.2 Academic Unit Assignment

Academic staff members are assigned to departments. Such assignments shall not determine the assigned duties of an academic staff member.

Such assignment shall determine the unit to which the member belongs for

actions arising pursuant to Articles 7 – Academic Planning and 29 – Financial Exigency.

15.3 Compensation

All academic staff members will be compensated in accordance with Appendix B.

ARTICLE 16 - NATURE OF APPOINTMENTS

The parties agree that full-time academic staff benefit students and enhance the academic reputation of the University. The University will plan its employment practices, as it is financially able to do so, in accordance with this view.

16.1 The University will appoint academic staff members in one of the following categories in accordance with procedures set forth in Article 15 – Appointment Categories.

16.1.1 Full-Time Appointment

A full-time appointment is one in which the academic staff member is working full-time on a year-round basis. No full-time academic staff member will be required to accept less than a full-time appointment.

16.1.2 Part-Time Appointment

A part-time appointment is a full-time appointment in which the academic staff member is required to work on less than a year-round basis (e.g. appointed to work on a regular basis from July 1st - December 31st).

16.1.3 Reduced Appointment

A reduced appointment is one in which the academic staff member's assigned duties, by mutual agreement between the member and the University, requires less than full-time employment. However, the member is normally appointed for a period of an academic year. A reduced appointment is made in each of the following situations: a member may elect to transfer from a permanent full-time to a permanent reduced appointment, or a new academic staff member may be appointed to a reduced position (e.g. appointed July 1st - June 30th, but works half-days or half-weeks).

16.1.4 Academic staff members on less than full-time appointments shall not be required to accept additional duties outside of the terms stipulated in the appointment. However, if it is mutually agreed that such members assume additional duties, the Vice-President

(Academic), will formally amend the part-time appointment of such academic staff members to reflect the additional duties, and adjustment in pay and benefits to compensate, on a prorated basis, for such additional duties.

16.1.5 The University may, in some unusual cases, make appointments which are both part-time and reduced (e.g. appointed July 1st to December 31st, and works 60 per cent of the time).

16.2 The University will specify, on the basis of Article 14.2, one of the following conditions for all appointments whether initial or subsequent:

16.2.1 Term

A term appointment has a terminal date which is stipulated in the letter of appointment and there is no obligation on the part of the University or the academic staff member to extend or renew employment beyond that date. Should the University wish to extend or renew a term appointment it will endeavour to notify the member in writing, with a copy to the Faculty Association of its intention six weeks prior to the expiry of the term appointment. The member is not obliged to accept such an offer of extension or renewal. The member will be on probation for one full semester. If the member is renewed in the same term position, probation will be waived.

16.2.1.1 Term appointments other than sessional lecturers or to a visiting appointment will normally be for twelve months except in special circumstances such as:

- when the need for the appointment was unforeseen and therefore cannot be filled at the beginning of the academic year;
- when it is used because an academic staff member is on leave for a period of less than twelve months;
- when it results from planning decisions arising from Article 7 – Academic Planning;

- when the recruiting procedure takes longer than normal;
- when the candidate's availability limits the appointment;
- when the appointment is a contingent appointment as specified in Article 16.2.1.8.

16.2.1.2 The University will endeavour to make term appointments (including subsequent appointments) as soon as possible after the need for the appointment becomes apparent.

16.2.1.3 Subject to the terms of the Federation Agreement between the University and the University of Regina, appointments shall be made at the academic rank appropriate to the appointee's qualifications based on the criteria developed within the appropriate University Department in consultation with the Vice-President (Academic).

16.2.1.4 An individual other than a visiting, emeritus, special, adjunct appointee or a Sessional Lecturer may hold a term appointment, or appointments, for any portion of the academic year for a total of five consecutive years only, unless mutual agreement to extend is provided by the Faculty Association.

16.2.1.5 At the request of the member, time spent in a term appointment shall count towards the fulfilment of probation if the academic staff member subsequently receives a tenure-track appointment provided that, in the judgement of the appropriate Associate Dean and the Vice-President (Academic), the time spent in the term appointment is appropriately related to the new appointment.

16.2.1.6 Academic staff members reappointed to term positions in the same subject areas, and those with multi-year contracts, shall receive any applicable scale increase and be eligible to receive increments subject to performance review.

16.2.1.7 Exceptions may be made to the normal procedures outlined in this article (16.2.1) with the prior agreement of the Faculty Association.

16.2.1.8 **Contingent**

When the University receives monies on a non-permanent basis, the President may grant an academic staff member an appointment contingent on those funds. The letter of appointment shall specify the funds upon which the appointment is contingent.

The academic staff member shall be advised of any change in the source of funds upon which the appointment is contingent. Where appropriate a contingent appointment shall be for a term equal to the term of available funds upon which the appointment is contingent. A contingent appointment shall be subject to the provisions of Article 16.2.1.

16.2.2 **Tenure-Track (towards Tenured Appointment)**

The appointment is probationary for a period of one year except when the appointment does not follow the academic year (July 1 to June 30). These appointments will normally be for up to two years, or a specified portion thereof in excess of twelve months.

Probationary appointments may be renewed but no individual may serve more than five consecutive years in a probationary capacity.

Not less than three months prior to the expiration of any probationary year, the University shall inform the academic staff member of the member's employment status following the end of that probationary year. The University shall make every effort to notify the member as soon as possible.

When an academic staff member has a leave for an entire academic year, the period on leave does not count as part of the five-year maximum probationary period.

Under special circumstances, such as when the academic staff

member has had a leave or leaves each of which are less than an academic year in duration, the probationary period may be extended at the request of the member and with the concurrence of the University, for one or two additional years, to a total of six or seven years. Such concurrence shall not be unreasonably withheld. Reasons for a negative decision shall be communicated in writing to the member.

An academic staff member who has been granted either a maternity and parental leave or sick leave and who chooses not to request an extension of the probationary period beyond five years shall not be discriminated against in the performance review process because of this choice.

16.2.3 **Tenured**

A tenured appointment is one which continues subject only to Articles 19 – Performance Review, 21 – Termination of Employment and 29 – Financial Exigency or retirement according to the requirements of the pension plan. In the case of academic staff members, a tenured appointment shall be as set out in Article 19.10.3.

16.2.4 **Member's Election to Transfer to Tenured Reduced Appointment**

The University or an academic staff member who holds tenured appointment may propose, without prejudice, a plan whereby that member's employment is reduced. A member may submit a request to the Vice-President (Academic) who will consult with the appropriate Associate Dean to initiate such an arrangement. The Faculty Association shall be informed of the terms of the offer and a representative of the Faculty Association has the right to participate in the ensuing discussion.

16.2.4.1 The maximum reduction in duties from full-time service shall be to fifty per cent.

16.2.4.2 An academic staff member whose application for a reduced appointment is approved shall have a "base salary rate"

computed as if the member were permanent on a full-time basis. All relevant salary adjustments shall be applied to the base salary rate. The "actual salary" to be paid to the member shall be prorated from the base salary rate in direct relation to the approved reduction in duties for the reduced appointment.

16.2.4.3 The academic staff member shall be eligible for promotion and other provisions of this collective agreement.

16.2.4.4 The member may return to full-time duties within the first twenty-four months following the effective starting date of the academic staff member's first reduced appointment, provided that the member gives six months' notice in writing to the Vice-President (Academic) and the appropriate Associate Dean of the member's intention to do so.

Following this twenty-four month period a member on reduced appointment may not return to full-time duties or change the percentage reduction in duties unless approved by the University.

16.2.4.5 Vacation entitlement shall be as stipulated in this collective agreement and shall be earned on a prorated basis.

16.2.4.6 **Regular Reduced Appointment**

The academic staff member shall continue to participate in the pension plan, and contributions shall be based on actual salary.

16.2.4.7 **Reduced Appointment Prior to Retirement**

However, if the academic staff member at the time of assuming the reduced appointment is eligible for retirement under the terms of the University Pension Plan and is not an active member of a pension plan associated with another employer, the contributions shall be based on the base salary rate if the member so chooses.

The pension contribution costs for the portion between the actual salary and the base salary shall be shared equally by the academic staff member and the University unless there is a prior agreement to do otherwise.

Notwithstanding the above, if such an academic staff member agrees in writing to take early retirement within two years of commencing the reduced appointment, the University shall pay the full cost of the pension contribution for the portion between the actual salary and the base salary; or compensate the employee with salary if the University is prohibited from making such payments.

16.2.4.8 The contributions and coverage for other benefit plans shall be based on the terms of the plans themselves and the academic staff member's actual salary.

16.3 **Appointment Offer and Acceptance**

Each academic staff member engaged by the University shall be sent a letter offering appointment, setting forth the conditions of the appointment. The letter offering appointment shall indicate the URL (uniform resource locator) for the Faculty Association Website. In order to accept an appointment the member shall submit a written acceptance within the time limit specified in the offer.

ARTICLE 18 - PERFORMANCE OF DUTIES

Academic Staff Members

18.1 Faculty

18.1.1 The duties of a faculty member shall include some, or all of:

- a) teaching and related duties;
- b) scholarship, research or equivalent professional activities;
- c) administrative duties;
- d) public service, especially to First Nations communities;
- e) working with Indigenous Traditional knowledge.

Duties may vary between individuals, or between academic units. Teaching duties are assigned by the Associate Dean following consultation with the program in committee.

No faculty member shall be expected to carry out duties, balanced over a reasonable period of time, which are unreasonably in excess of those applicable to faculty members, within the program or equivalent unit to which the member belongs. The Vice-President (Academic) shall ensure that the system for assignment of duties results in a fair and equitable distribution of duties among faculty members.

Over a reasonable time, variations in the normal array of duties of a faculty member in a program or equivalent unit may occur. Such variations shall be fair and shall not exceed or be less than what, in total, would be considered a normal workload within that or equivalent unit.

Other information regarding performance of duties will be provided in each department's specific criteria document.

18.1.2 Normal full-time teaching loads shall be determined by each program meeting in committee with the Vice-President (Academic). Consultation in Committee as defined in Article 7.2 applies to this Article.

18.1.3 In lieu of classroom teaching duties, other duties and services shall be counted in the determination of the full-time load of individual faculty members and shall be set forth in each department's specific criteria document. In departments where a new Criteria Document has not been approved, the existing Criteria Document in Article 19 – Performance Review will be used.

18.1.4 Normal duties are performed over the twelve month period of an academic year unless otherwise specified in the terms of the member's appointment.

18.1.5 When assigning duties to faculty members, all relevant factors shall be taken into consideration.

18.1.6 Research Projects

Faculty members are eligible to receive two months each year for conducting a research project if the faculty member gives the Associate Dean with a copy to the Vice-President (Academic) at least two (2) months' notice of intention, in writing, to carry out a specific research project. Upon approval of the written research proposal by the Associate Dean the University shall provide the faculty member with two clear months within which to carry out the said research project. The faculty member shall, within a reasonable time period following the research project, provide the Associate Dean with a copy to the Vice-President (Academic), a report of the activities undertaken and results obtained.

18.1.7 Information Technology in Teaching and Related Duties

18.1.7.1 For purposes of this agreement, information technology in teaching and related duties shall be defined as any lecturing, teaching, seminar, or laboratory material which is delivered by any electronic media, or the development of electronic and related materials for these.

18.1.7.2 The University is committed to ensuring that academic staff members receive appropriate recognition through the performance review process for their contributions when information technology is used in the performance of teaching

and related duties. To this end, the University will cooperate with academic staff members to facilitate the creative use of technology in delivering courses to First Nations communities.

18.1.7.3 The University recognizes that the preparation and delivery of information technology in teaching and related duties frequently require skills and efforts beyond those for the preparation and delivery of other courses. Every effort shall be made to assign information technology courses in a manner consistent with the desires of the academic staff members and their familiarity with the required technology. Members assigned to teach information technology courses shall be provided with proper training in the use of any required technology prior to or at the time of such assignment. The Associate Dean shall consider the innovative nature of the course, the member's familiarity with the technology used to deliver the course, and the availability of technological and human resources in assessing the effort required to develop and conduct an information technology course in making both teaching workload assignment and annual reviews. Consideration will be given to the number of students and the number of conference sites in deciding the teaching load of academic staff members who teach courses that employ video conferencing. The University will provide training and support for courses that employ video conferencing.

18.1.7.4 Criteria documents may be amended, following consultation in committee between the program and Vice-President (Academic), to reflect the use of information technology in teaching and related duties. Consultation in Committee as defined in Article 7.2 applies to this article.

18.2 **Librarians**

Note: The position of "Archivist" is included in the general title of "University Librarian".

18.2.1 The duties of a librarian shall be relevant to the effective operation and servicing of the University Library and consistent with the status of professional librarian. Such duties shall require physical presence at the

work place for specified periods of time.

Duties and hours of work are to be as assigned by the Head Librarian or other appropriate person and shall include some, or all of the following:

- a) position responsibilities associated with serving the needs of the University Library and its clientele;
- b) research or professional activities;
- c) administrative duties;
- d) public service, especially to First Nations communities;
- f) working with Indigenous Traditional knowledge.

Duties may vary between individuals or academic units.

- 18.2.2 The duties of a librarian are to be performed on a twelve-month basis unless otherwise specified in the terms of the librarian's appointment.
- 18.2.3 The Vice-President (Academic) in consultation with the Head Librarian or other appropriate person shall ensure that the system for assignment of duties results in a reasonably fair and equitable distribution of duties among librarians.
- 18.2.4 Librarians shall not be expected to carry out duties or a workload, balanced over a reasonable period of time, which is in excess of those applicable to librarians at comparable institutions. Over a reasonable time, variations in the normal array of duties of a librarian may occur. Such variations shall be fair and over time, shall result in a normal work load.
- 18.2.5 Librarians shall discharge their duties in accordance with established procedures.
- 18.2.6 Librarians are responsible to the Vice-President (Academic) for the satisfactory performance of their duties.
- 18.2.7 A librarian may request, or the Vice-President (Academic) may suggest, that a librarian undertake a special assignment of benefit to the University Library or to the librarian, on a full-time or part-time basis, for a specific period of time, provided that:

- 18.2.7.1 such an assignment is scheduled by mutual agreement between the librarian and the Head Librarian or designate;
- 18.2.7.2 the Head Librarian or designate and the librarian requesting the assignment will, in the process of mutual consultation discuss the research/scholarly/professional proposal;
- 18.2.7.3 if permission is granted, the Vice-President (Academic) will ensure, in writing, that the librarian is relieved of part or all of regular duties, as appropriate in the circumstances;
- 18.2.7.4 a report on, and evaluation of, these special assignments will be included in the performance review.

18.3 **Laboratory Instructors**

The duties of a laboratory instructor are to provide support for teaching programs and shall include one, some, or all of:

- a) laboratory instruction and related duties;
- b) laboratory development and related professional activity;
- c) administration and maintenance;
- d) public service, especially to First Nations communities; and
- e) working with Indigenous Traditional knowledge.

Duties and workload relating to laboratory instruction and development are assigned by the Associate Dean following consultation in committee. Consultation in Committee as defined in Article 7.2 applies to this article.

18.4 **Sabbatical**

The University endorses sabbaticals as a means of encouraging continuous professional development, and productive scholarship, which will be mutually beneficial to the academic staff member and the institution. An academic staff member may apply for, or the University may offer, a sabbatical. The University shall grant annually a limited number of sabbaticals in keeping with its responsibilities. Such sabbaticals shall not be unreasonably withheld.

- 18.4.1 **Eligibility:** In order to be eligible to take a first sabbatical, the academic staff member must have at least six years of continuous full-time

employment at the University in the ranks of Professor, Associate Professor, Assistant Professor, Lecturer, Librarian, or Laboratory Instructor.

To be eligible for a subsequent sabbatical:

- a) the academic staff member is eligible for a twelve-month sabbatical if there has been at least six years of continuous full-time employment in the above ranks since returning from the previous sabbatical;
- b) the academic staff member is eligible for a six-month sabbatical if there has been at least three years of continuous full-time employment in the above ranks since returning from the previous sabbatical.

All years of eligibility are foregone when an academic staff member takes a sabbatical. However, should a member have eligibility, a proposal acceptable to the Vice-President (Academic), and a valid plan for a sabbatical, and then have such a sabbatical delayed by the Vice-President (Academic) for a year or more, that member will be granted a sabbatical as soon as possible, and eligibility for the subsequent sabbatical will be accumulated as if the member had taken the sabbatical as originally planned.

When an academic staff member is eligible for a twelve-month sabbatical at eighty per cent (80%) of salary but takes only a six-month sabbatical at one hundred per cent (100%), the member shall be credited for three years towards a subsequent sabbatical.

18.4.2 **Duration:** A sabbatical is for a period of twelve months, or for a period of six months, commencing May 1st, July 1st or January 1st. With the concurrence of the Vice-President (Academic), an academic staff member may take a twelve-month sabbatical in two six-month periods with an interval of six months between them.

18.4.3 **Remuneration:** The academic staff member will receive a salary of eighty per cent (80%) for twelve months or of salary of one hundred per cent (100%) for a six months, exclusive of stipends, which is in effect during the sabbatical period. The member may apply to use part of the

remuneration as a research grant. Other remuneration which the member may receive during the sabbatical, including funds provided by governments in accordance with First Nations treaty rights to education, is limited to an amount which brings the total to one hundred per cent of normal salary, exclusive of grants for research purposes and monies obtained for authorized outside professional activities, plus travel and related expenses for the member (unless claimed as part of the sabbatical grant defined above), spouse and dependent children. The University may recover any amount in excess of 100% obtained by the member in contravention of this article. The University assumes no responsibility for the taxation status of sabbatical grants.

- 18.4.4 **Benefits:** The University's and the academic staff member's contributions to employee benefits shall be based on the salary which the member would normally have received in that year.
- 18.4.5 **Vacation:** The academic staff member shall be deemed to have used a prorated portion of annual vacation during the sabbatical.
- 18.4.6 **Application:** An eligible member of the faculty may apply to the Vice-President (Academic) eight months prior to the beginning of the academic year in which the sabbatical is to commence. A detailed statement of the academic staff member's plans for the entire period of sabbatical, indicating the anticipated benefits to the member and the institution, shall accompany the application.
- 18.4.7 **Notification:** The Vice-President (Academic) shall inform the academic staff member of his or her decision at least five months prior to the commencement of the academic year in which the sabbatical was proposed to commence.

Should an application not be approved, the Vice-President (Academic) shall provide written reasons for the decision.

- 18.4.8 **Cancellation and Change:** The academic staff member may cancel the application by notifying the Vice-President (Academic) in writing at least four months prior to the commencement of the academic year in which the sabbatical was proposed to commence. After that date the sabbatical

normally may not be cancelled or deferred.

It is the responsibility of the member to notify the Vice-President (Academic) of any changes in plans, and to consult with the Vice-President (Academic) about revised plans, in order to use the sabbatical for professional development and productive scholarship.

- 18.4.9 **Report:** The academic staff member must prepare and forward to the Vice-President (Academic), within three months of returning, a written account of the member's scholastic and professional activities during the sabbatical. The result of the member's research shall be disseminated in an appropriate form within the University.
- 18.4.10 **Return to Staff:** The academic staff member shall return to the staff of the University for a period of at least six months following the sabbatical, or the University may require the member to reimburse the University for all remuneration received during the sabbatical prorated to the amount of time, expressed in full months, by which the member's service to the University, since returning, is short of six months. This condition shall not apply when a member ceases to be employed as a result of an unforeseen early retirement immediately upon returning from a sabbatical.
- 18.4.11 **Waiver of Specifications::** Any of the above specifications may be waived by mutual agreement, confirmed in writing, between the University, the academic staff member, and the Faculty Association.
- 18.4.12 **Rank & Salary Adjustments:** Time spent on sabbatical shall count as service to the University for rank and salary adjustments, including career growth increments and any changes in salary scales as specified in Appendix B.
- 18.4.13 **General:** Sabbaticals shall be earned from the date of full-time appointment at the University in a probationary or permanent position. Those academic staff members who have occupied term positions and subsequently are granted a probationary or permanent appointment shall be granted credit for sabbaticals in respect of all years continuously served immediately prior to the granting of a probationary or permanent appointment. Sabbaticals may

not be taken by any academic staff members, however, until their appointment has been made permanent.

General Provisions

- 19.2.1.1 The initial evaluation shall be made in accordance with procedures established by the criteria document of the department or equivalent unit, or the general criteria as outlined in Article 19.3, and entered on the Performance Review form over the signature of the initial reviewer. The initial reviewer is normally the Associate Dean, Academic.

The initial evaluation shall be communicated in writing to the academic staff member no later than February 15th. The academic staff member shall sign the form indicating the member has read the document. Signature does not necessarily imply agreement.

The recommendation shall be discussed by the initial reviewer with the academic staff member.

Clarifying information may be added by the academic staff member within one week. This additional information shall be attached to the form prior to forwarding it for review by the Academic Performance Review Committee.

- 19.2.1.2 The next step in the review process is a review by the Academic Performance Review Committee, which is comprised of academic staff members who have been granted tenure and who are elected by academic staff members of the University covered by this Collective Agreement.

The Academic Performance Review Committee shall review the statements included in and attached to the Annual Information Form and the Performance Review Form in light of established criteria documents, or the existing criteria as outlined in 18 and 19.3, where no criteria document exists, and make written recommendations on the form prior to March 31st.

- 19.2.1.3 The academic staff member has the right to see the Performance Review form after all statements have been made on it prior to those of the Vice-President (Academic).

When all written statements from the first and second stages of the review have been included on or appended to the performance review form, the Vice-President (Academic) shall notify each academic staff member that the form is ready to be seen by the member. The Vice-President (Academic) will provide the member with an opportunity to read the performance review form and will provide a copy to the member upon the member's request.

By April 15th the Vice-President (Academic) shall also invite each academic staff member to request a meeting, if he or she so chooses, for the purpose of perusing and discussing the information on the form, and the career decision that will be made by the Vice-President (Academic). Unless prevented from doing so by unusual circumstances, any member who wishes to make an appointment shall have seven days. The Vice-President (Academic) will schedule an appointment as quickly as possible except for those members who are on leave.

At the meeting, the academic staff member shall be given an opportunity to interpret, explain, or add the information contained in the written statements. The Vice-President (Academic) shall allow a period of seven calendar days after the initial meeting in case the academic staff member wishes a further consultation.

If the academic staff member feels that there is a reason to do so, that member may attach a special submission to the Performance Review Form prior to the final decision or recommendation of the Vice-President (Academic). It is the member's obligation to attach such a submission within seven days after the initial interview.

19.2.1.4 Only after all the steps outlined above have been completed will the Vice-President (Academic) make a decision concerning the academic staff member's career progress. The Vice-President (Academic) may consult with any of the parties involved in the review process prior to making a decision.

The Vice-President (Academic) shall base their decision on the initial review and the Academic Performance Review Committee's review, and the documents attached to the review form as provided for in Article 19. The decision of the Vice-President (Academic) shall be entered on the Performance Review Form and signed by May 15th. The decision shall take effect July 1st.

19.2.1.5 Every academic staff member who has undergone a review, and whose performance has been deemed to be below standard shall be so informed in writing by the Vice-President (Academic) on or before May 15th. The Vice-President (Academic) shall provide written reasons for the decision and shall make specific written recommendations for the necessary improvements in order for performance to be considered acceptable, provided that the member maintains acceptability in other areas.

19.2.1.6 If the academic staff member is dissatisfied with the decision of the Vice-President (Academic), he or she may appeal in writing such decision by June 15th, in accordance with Articles 19.7 and 19.8.

19.2.2 Annual Information Forms

No later than September 1st of each year, the Vice-President (Academic) shall provide eligible academic staff members with an Annual

Information Form which they shall complete and submit to their Associate Dean, Academic or designate on or before December 15th of each year. Academic Staff members will complete the forms using information from the appropriate academic year. No review will be conducted on a member who does not submit a completed Annual Information Form by December 15th and no career growth increment or any other career advancement will be awarded, with the exception of those academic staff members on sabbatical, secondment or leave, and those academic staff members with tenured appointments, who are reviewed in accordance with article 19.10.4.

19.2.3 Reviews

19.2.3.1 Types of Reviews

Career growth increments (Article 19.10.1)

Annual Reviews for renewal of tenure track (Article 19.10.2)

Reviews for tenure (Article 19.10.3)

Review for academic staff with tenure (Article 19.10.4)

Review for Associate Dean (Article 19.10.5)

Formal review for promotion (Article 19.10.6)

Reviewing members who are on Sabbatical, Secondment, or Leave (Article 19.10.7)

19.2.3.2 Review Period

Annual reviews from July 1st to June 30th apply to CGI applications and renewal of tenure-track applications, except in the case of an initial tenure-track appointment (Article 16.2.2). The period for other reviews shall cover the time since the last formal review, except in the case of an application for promotion or consideration of a tenured appointment, both of which shall involve a review of the applicant's career. See Articles 19.10.3 (Review for Tenure) and 19.10.6 (Formal Review for Promotion).

19.2.3.3 Ethics and Responsibilities

The parties to this agreement recognize that the performance review process depends upon honesty and fairness. All persons involved in this process must undertake their roles seriously and with integrity, ensuring that statements, both verbal and written, refer to specific aspects of performance, are fair commentary, and are based upon appropriate evaluation of evidence.

19.2.3.4 Information and Considerations for Review

The member is responsible for consulting the collective agreement to determine what documents are required for their specific review. The documents and any other relevant information will be attached to and submitted with the completed annual information form.

The factors normally taken into consideration in the review shall include those duties outlined in the appropriate section of Article 18 – Performance of Duties.

In this review, the nature, extent, and location of such duties shall be taken into consideration. When assessing Librarians and Program Coordinators, the amount of time available for research or professional activities shall be taken into account.

19.2.4 Decisions Concerning Career Development

Decisions resulting from career reviews shall be taken by the Board, or by officers of the University designated for each category of decision.

On the basis of the review of the performance of a faculty member, the Vice-President (Academic) shall make decisions regarding career development with respect to career growth increments, renewal of tenure-track appointments, tenured appointments, and promotion. The Vice-

President (Academic) shall inform faculty members of such decisions in accordance with the dates specified in Article 19.

19.3 Criteria

The criteria to be considered with respect to career development shall include some or all of: Teaching Effectiveness, Scholarship, Research and Professional Activities, Service to the University and the University of Regina, Service to First Nations Communities, and Working with Indigenous Traditional Knowledge. No priority is intended in the examples listed below under each criterion. They are not intended to constitute an exhaustive list of the kinds of evidence which may be weighed, but rather to define the criteria by illustration and example.

19.3.1 Teaching Effectiveness

Reviews of performance in relation to this criterion will include reference to factors such as the following, which are presented as examples only:

- knowledge of customs, philosophical traditions, behavioural norms and ceremonial etiquette
- knowledge of the roles of Elders and traditional leaders, and of oral literature and social functions of storytelling
- quality of course content, presentation and testing
- Incorporating Traditional Indigenous Knowledge and perspectives into curriculum and extracurricular programming
- Incorporating Elders and traditional leaders, storytelling, ceremony, i.e. sharing circles, etc. in the classroom
- demonstrated effort toward the improvement of the quality of course content, presentation and testing
- flexibility in course offerings (e.g., variety of courses taught, preparation of new classes)
- additional voluntary contact hours (e.g., reading classes, direction of Honours and Graduate students, special seminars, tutoring)
- counselling of students within the discipline
- availability to students outside of the classroom

- development of Teaching Methods and Curriculum specifically appropriate to First Nations students
- development and delivery of university degree and non-degree programs to First Nations communities

19.3.2 **Scholarship, Research and Professional Activities**

Reviews of performance in relation to this criterion will include reference to factors such as the following, which are presented as examples only:

- special effort in making research or study and the results thereof accessible to First Nations people
- consultations with Elders and communities in the service of research
- research beyond the level normally required for preparation of classes
- attending discipline-related conferences or seminars, insofar as they contribute to professional development
- presenting papers at conferences or seminars, or chairing sessions at such events
- publication of papers, books, monographs, etc.
- work toward publication of papers, books, monographs, etc.
- academic recognition as referee, reviewer, thesis examiner
- professional activity as speaker, consultant, etc.

19.3.3 **Service to the University and the University of Regina**

Reviews of performance in relation to this criterion will include reference to factors such as the following, which are presented as examples only:

- service on University and University of Regina committees
- administrative duties (e.g., Associate Dean, Program Coordinators, etc.)
- arranging for and participating in University events
- services to students such as academic counselling, voluntary participation in a tutorial program, etc.

19.3.4 **Service to First Nations Communities**

Reviews of performance in relation to this criterion will include reference to factors such as the following, which are presented as examples only:

- service on local, provincial or national committees or associations of a professional (but not necessarily discipline-related) nature
- voluntary public service activities which reflect credit on the profession and the University
- serving on committees within First Nations organizations, communities, and government
- providing professional services outside of the University, including translation, research, consultancies

19.3.5 **Working with Indigenous Traditional Knowledge**

Reviews of performance in relation to these criteria will include reference to factors such as the following, which are presented as examples only:

- developing knowledge of customs, philosophical traditions, behavioural norms and ceremonial etiquette
- developing knowledge of the roles of Elders and traditional leaders
- consulting Elders to obtain their guidance in matters pertaining to traditional cultural values and ways of doing things
- involving Elders in Program Council or other meetings
- assisting Elders, when requested by them, in matters pertaining to the affairs of the University

In relation to this criterion, it is recognised that working with Elders and Indigenous Traditional Knowledge is essentially a qualitative, rather than quantitative experience. As such, reviews of performance in relation to this criterion will consider that an individual's experience of working with Elders and Indigenous Traditional Knowledge cannot be measured or quantified to the same degree or in the same ways as the other criteria. Elders are a resource for academic staff in relation to their work as

teachers, as providers of service to First Nations communities, and in many disciplines as scholars. Academic staff will not be evaluated on their personal relationships with Elders, i.e., attending ceremonies, seeking personal counsel, etc. Academic staff will be evaluated on their professional involvement with Elders, Knowledge Keepers, and in their work with customary, holistic, and experiential aspects of Traditional Indigenous Knowledge in relation to their work as academic staff at the University.

19.3.6 In addition to these general criteria, specific criteria relating to each academic department will be agreed upon between the Vice-President (Academic) and the Program Council. When academic program criteria are developed and adopted they replace the criteria in this Article for review of all academic staff members in that program.

19.3.7 Criteria for Performance Review Specific to Each Department

The factors to be taken into consideration in performance review and awarding of career growth increments shall include the information and considerations of Article 19.2.3.4. The application of these factors shall be in accordance with written established criteria documents and procedures.

When establishing review criteria and procedures, the Vice-President (Academic) shall consult in committee with the academic staff members of the academic program. The criteria and procedures may be reviewed by the Vice-President (Academic) through consultation in committee with the members of the academic unit or program. Such a review can be initiated either at the request of the Vice-President (Academic) or at the request by the members of the academic unit or program; as ascertained by a motion to that effect passed at a meeting of the members of the relevant Program Council. The criteria and procedures shall be distributed to the members to whom they pertain and to the Faculty Association.

New or revised review criteria and procedures must be approved before the beginning of the review period to which they shall apply. Approval shall be by a majority vote of the academic staff members of that program.

Consultation in Committee as defined in Article 7.2 applies to this Article.

In programs where a new Criteria Document has not been approved, the Criteria Document in Article 19.3 will be used.

In elaborating on the duties of academic staff members and the process by which members' performance of these duties is to be reviewed, Criteria Documents shall not contravene any of the provisions of the Collective Agreement.

In the review, the nature, extent, and location of such duties shall be taken into consideration. When assessing librarians, the amount of time available for research or professional activities shall be taken into account.

While it is recognized that there may be considerable variation in interpreting the criteria for departments and equivalent units, every effort will be made by the Vice-President (Academic) to ensure that such variations are not extreme or unfair. Consultation in Committee as defined in Article 7.2 applies to this Article.

19.3.8 Student Course/Instructor Evaluations

The Vice-President (Academic) may develop, administer, and use student course/instructor evaluation forms, following Consultation in Committee with the faculty. Such evaluation forms shall be designed, in part, for the purpose of obtaining fair and reasonable assessments of the quality of teaching.

The Faculty Association and the University agree that student course /instructor evaluations do not constitute unequivocal measures of teaching

effectiveness and may only be used as part of a more comprehensive teaching evaluation system which may include other measures of student impact, peer evaluation, and reflective thought from the member. Such system, if developed, shall be created in consultation with the academic staff members of the appropriate academic unit and included in the area criteria documents.

When the information from student course/instructor evaluations is used, it will be in an aggregated or summarized form. Anonymous student comments gathered in the course/instructor evaluation process shall not be included in the aggregated or summarized forms. It is the member's choice to provide students' comments, but if they choose to do so, they must provide the complete set of students' comments from the course.

An academic staff member who does not wish to use the form that is in current use may make a written proposal to the Vice-President (Academic) suggesting an alternative method of student course/instructor evaluation.

19.3.9 The Vice-President (Academic) may consult with any of the parties involved in the review process prior to making a decision.

19.4 Inadequate Performance

If the Vice-President (Academic) demonstrates that the performance of the academic staff member has been inadequate, in exceptional circumstances the Vice-President (Academic) may initiate procedures under Article 21.1.4.1. Such procedures shall be initiated only after the Vice-President (Academic) has provided the member with a written statement detailing the performance inadequacies, stating the seriousness of the situation, and giving recommendations for improving the member's performance.

The Vice-President shall advise the member that they can contact the Faculty Association, and request that the Faculty Association be present at any related meetings. Any action taken under Article 21.1.4.1 shall be initiated only after all

opportunities for improving the member's performance have been exhausted. All steps in this process are taken in accordance with the terms of this Collective Agreement.

19.5 Letters of Reference

19.5.1 A candidate for tenure or promotion to Professor, or Associate Professor if applicable (as provided for in Article 19.10.6.5), shall supply a list of three referees to the Vice-President (Academic) prior to December 15th.

The Vice-President (Academic) shall request a letter of reference from each of them. In addition, the Vice-President (Academic) may obtain letters of reference from up to three additional referees.

19.5.2 Prior to December 15th, the academic staff member shall meet with the Vice-President (Academic) concerning the materials from their file that are to be sent to the referees. Following this consultation, the member shall select representative materials from the member's work to send to the referees. The member may also provide a written statement concerning their request for tenure or promotion.

19.5.3 When soliciting written references from the referees, the Vice-President (Academic) shall provide the appropriate criteria document and the materials in Article 19.5.2 the academic staff member has requested to be sent to the referees; indicate what career decision is under consideration; advise each referee of the review procedure; and advise the referees that the letters may be retained and used again in reference to the same career decision. The letters of reference, when received, shall be attached to the candidate's review form. On each letter there shall be an indication of whether the name was suggested by the candidate or by the Vice-President (Academic).

19.5.4 If the career decision applied for is granted, the letters shall be detached and destroyed. Otherwise, all letters of reference secured in accordance with the procedures outlined above shall remain attached to the candidate's review form until the conclusion of the appeal or arbitration process for that particular year.

19.5.5 All letters of reference shall be destroyed after all reviews, appeals or arbitrations have been completed.

19.5.6 No letters of reference used in connection with career decisions are placed in the academic staff member's official file.

19.6 Amendment of Comments (Review Board)

It is the responsibility of the Vice-President (Academic) to evaluate the performance of all academic staff members. If the Vice-President (Academic) deems that a written comment or evaluation on the annual information form, the performance review form, or any material attached thereto, by a person or committee involved in the performance review process, is unsupported by the evidence, the Vice-President (Academic) may refer that document back to the party that wrote the comment for reconsideration. If the party refuses to amend or delete the comment, the Vice-President (Academic) may do so.

If an academic staff member deems that a written comment or evaluation on the annual information form, the performance review form, or any material attached thereto, by any person or committee involved in the performance review process, is biased, unfair, or otherwise improper, the member may request that the comment be reconsidered. If the Vice-President (Academic) agrees, the author shall be asked to rescind or alter the comment. If the party refuses to amend or delete the comment, the Vice-President (Academic) may do so.

If the Vice-President (Academic) does not agree, or if the author refuses to rescind the comment or alter it in a manner acceptable to the academic staff member, the Vice-President (Academic) or the member may refer the matter to a Review

Board. The board shall determine as to whether or not the comment is to be excised or amended.

The board shall be composed of tenured academic staff members outside the academic unit where the dispute has occurred. The board will consist of three members. The University and the Faculty Association shall each name one academic staff member to the board. The Chair shall be selected by mutual agreement between the Faculty Association and the University. A mutually agreed upon Elder may attend the review and give guidance to the Review Board as a neutral advisor. (See Appendix C: General Procedures for Review Board).

The University shall inform the Faculty Association of disputes arising under this Article, and shall provide the Faculty Association with the information, including the decision and rationale of the review panel, needed to monitor the progress and resolution of such disputes.

19.7 Appeal Process

19.7.1 Appeal of Decision Concerning Career Development

When an academic staff member is dissatisfied with the decision concerning career development, the grievance procedure shall not apply, but the academic staff member may apply, through the Faculty Association, for the decision to be reviewed by an Appeal Process.

An Appeals Committee shall be established in accordance with the procedures of Article 19.8.2. Normally, all appeals arising out of the decision by the Vice-President (Academic), as a result of career reviews, are heard by an Appeals Committee.

19.7.2 The University and the Faculty Association may agree that a special case be taken directly to arbitration, in accordance with the provisions of Article 19.9 rather than through the appeal process. When the grievance arbitration procedure is used regarding matters other than the decision resulting from career review which is communicated to

the member, an Arbitration Board may not make career decisions which are the responsibility of the University, but shall have the power to require that the University follow procedures and communicate decisions to the member.

19.7.3 Purpose of the Appeals Committee

The purpose of the Appeals Committee is to review decisions concerning career development being appealed by academic staff members. The Appeals Committee shall consider the written material provided at the time of review, to the Vice-President (Academic) supplemented by any further documentation pertaining to the original material the member wishes to provide to the Committee, and by oral presentation. All information considered by the Appeals Committee shall be restricted to the period of time under review, i.e., prior to December 31st, unless otherwise specified at the outset of the review.

19.7.4 Grounds for the Appeal

The appellant has the onus of showing that the grounds raised by the notice of appeal are established and further, that the existence of such grounds discloses that the decisions or recommendation made by the Vice-President (Academic) was contrary to the evidence presented, or manifestly unfair, to the appellant.

19.8 Appeal Procedure

19.8.1 Notice of Appeal

The appeal is initiated by the academic staff member filing, with the Chair of the Faculty Association, a notice of appeal on or before June 15th.

The notice of appeal shall:

- 19.8.1.1 specify the name, rank, program and faculty or equivalent academic unit of the appellant;
- 19.8.1.2 specify the decision which is being appealed;
- 19.8.1.3 specify the grounds on which the appeal is based;
- 19.8.1.4 specify what remedy, or remedies, the appellant believes to be sufficient to correct the alleged violation;
- 19.8.1.5 be signed and dated by the appellant.

The Faculty Association shall forward, in a timely manner, to the Supervisor of Human Resources, with a copy to the Vice-President (Academic), a list of appeals which it intends to take to the Appeals Committee.

19.8.2 **Appeals Committee**

The Appeals Committee shall consist of three members who now hold, or have held, academic rank with a tenured appointment one appointed by the Faculty Association, one appointed by the University and a Chair agreed upon by the University and the Faculty Association. A mutually agreed upon Elder shall also attend the appeal and give guidance to the Appeals Committee as a neutral adviser. In the event a Chair cannot be selected in this manner, the University President shall name the Chair.

19.8.3 **Transmittal of Appeals**

The Chair or designate of the Faculty Association shall sign all appeals to be submitted and forward them to the Chair of the Appeals Committee. Only those appeals received by the Chair of the Appeals Committee in this fashion shall be considered by the Committee.

19.8.4 **Notice of Hearing**

The Chair of the Appeals Committee shall notify each appellant in writing of the date, time and place for the appeal to be heard. In addition, the Chair shall inform the appellant in writing of the general procedures to be followed by the Committee. The Chair shall provide the University and the Faculty Association with copies of the information provided to the appellant.

19.8.5 **Appeals Committee Hearing**

The hearing shall be attended by:

- the Appeals Committee;
- the appellant, who may be accompanied by or represented by a colleague;
- the Vice-President (Academic), who may be accompanied by or represented by a colleague;
- two observers for the Faculty Association;
- two observers for the University;
- an Elder.

The Appeals Committee may also have staff in attendance, responsible to the Chair, for supportive duties such as recording. The Appeals Committee, the appellant and the University may have witnesses present to provide evidence pertaining to the case being heard. The Appeals Committee may stipulate when witnesses may be present and no additional persons may attend without the permission of the Appeals Committee.

When it is the intention of either the appellant, or the Vice-President (Academic) to request that witnesses be present, that party must notify the Appeals Committee, with copies to the Faculty Association and the University, of the names of witnesses, in a timely manner (normally at least seven calendar days prior to the Appeal Hearing).

The hearing is first addressed by the appellant. The appellant shall be entitled to provide, through documentation or testimony, all evidence which the academic staff member deems relevant to the appeal and which was available to the Vice-President (Academic) when the decision being appealed was made. This evidence should address the grounds for the appeal, as provided for in Article 19.7.4.

The hearing is then addressed by the respondent, i.e., the Vice-President (Academic), who defends the prior decision. It is the responsibility of the Vice-President (Academic) to provide, through documentation or testimony, the evidence relevant to the decision.

After the Vice-President (Academic) has presented the case, the appellant shall have the right of rebuttal (that is, not introducing new material but responding to the case made by the Vice-President (Academic)).

Questions may not be directed by one party to the other party, i.e., between appellant on the one hand and the Vice-President (Academic) on the other. However, members of the Appeals Committee may direct questions to anyone presenting a case or appearing as a witness.

A brief written summary of the appellant's and Vice-President (Academic)'s presentations may be provided to the Committee.

19.8.6 **Records**

The Chair is responsible for the preparation of all recording of the hearings and shall retain such recording for a period of one year and shall then destroy it. If a matter being dealt with by the Appeals Committee goes to arbitration, either the University or the Faculty Association may require a transcription to be prepared of part or all of the recording. The party requesting the transcript shall pay the cost of its preparation and shall provide a copy to the other party.

After careful consideration, the Committee shall render by July 31st a recommendation to the President concerning the disposition of the Appeal based on fair and uniform application of the terms and conditions of Articles 18 – Performance of Duties and 19 of the collective agreement.

19.8.7 Decision of the Appeals Committee

At the conclusion of the Appeals Committee's deliberations, the Chair shall convey its recommendations, together with a brief statement of the principal reasons for the recommendations, in writing, to the President with a copy to the Faculty Association by the July 31st deadline.

19.8.8 President's Action

Upon receipt of the report, the President shall accept or reject the recommendation for each action concerning each appellant and shall communicate in writing to the appellant any action taken as a result of such recommendation, with a copy to the Faculty Association by September 15th.

19.9 Arbitration

19.9.1 Arbitration Regarding Action by the President following Appeals Committee Recommendation

By September 30th the appellant and the Faculty Association may submit any decision of the President, following the appeal procedure, directly to the arbitration process outlined in 23.6, according to the terms stipulated in that article, except for the following:

19.9.1.3 Decisions of the Arbitration Board shall be communicated in writing by November 30th to the academic staff member the President and the Faculty Association. The President shall implement the decisions of the Arbitration Board. 21.1.3.5 Any agreement or arrangement concluded pursuant to

21.1.3.1 and 21.1.3.2 must be in writing. The agreement shall not take effect unless and until the President of the University, the affected academic staff member, and the Faculty Association have signed the agreement.

21.1.3.6 In the event that retraining reassignment or transfer are inappropriate and the parties are unable to agree upon a special arrangement under Article 21.1.3, then either the University or the academic staff members may invoke binding arbitration in accordance with Article 23.6 to determine the package applicable for early retirement or discontinuance by special arrangement.

21.1.4 **Dismissal for Cause**

The following procedures shall apply in all cases of dismissal for cause:

21.1.4.1 The employment of an academic staff member may be terminated by reason of just cause, which includes but is not limited to professional misconduct, wilful neglect of duties and responsibilities, or incompetence demonstrated by annual review reports.

21.1.4.2 Except in the case of gross misconduct, due warning in writing shall be given by the Vice-President (Academic) to the academic staff member pointing out the gravity of the situation and the possibility of termination if the problem is not corrected. In cases where no action is taken subsequent to the written warning, and where no further warnings have been issued during three years, the Vice-President (Academic) shall, upon request of the member, add a written note to the member's official file reflecting the member's current status in relation to the original letter of warning.

21.1.4.3 When it is to be recommended that an academic staff member be dismissed for cause, the member shall be given notice in writing that seven days from the date of

the notice the Vice-President (Academic) will formally recommend to the President that the member be dismissed. In the event that it is not possible to personally present the member with the notice, the Vice-President (Academic) shall forward the notice by registered mail to the last known address of the member. Such mailed notice shall provide for a period of fourteen calendar days from the date the notice is sent until the formal recommendation to the President. The notice to the member shall contain a complete statement of the grounds for the recommendation to dismiss. A copy of the notice shall be sent to the Faculty Association.

When it is unlikely that the academic staff member will receive the mailed notice within fourteen days, the Faculty Association may request an extension of seven days to the notice period. From the date the notice is given, the member shall be relieved of all duties by the Vice-President (Academic).

- 21.1.4.4 If the academic staff member or the Faculty Association requests it, the President shall convene a meeting during the notice period specified in 21.1.4.3 attended by the member (if available), the Vice-President (Academic), the Associate Dean, and a representative of the Faculty Association, to hear whatever representation any of the parties wishes to make concerning the intended dismissal. The meeting shall be without prejudice to the interest of any person attending, or to the formal grievance process.
- 21.1.4.5 At the end of the notice period, the Vice-President (Academic) shall either:
 - a) inform the academic staff member in writing with a copy to the Faculty Association that the action is discontinued; or
 - b) formally recommend in writing to the President, with

a copy to the academic staff member and to the Faculty Association, that the member be dismissed.

- 21.1.4.6 Upon receipt of a formal recommendation from the Vice-President (Academic) to dismiss an academic staff member, the President shall, within seven calendar days of the date of the recommendation, inform the member in writing, with a copy to the Faculty Association, either that the action is discontinued or that the member is dismissed.
- 21.1.4.7 In the case of dismissal for reasons other than gross misconduct or unauthorized absence from campus, from the date of the President's letter the academic staff member may be suspended with or without pay for twenty-one days. During a suspension a member shall be relieved of all duties.

If the academic staff member does not file a grievance within the twenty-one day period, the member's employment is terminated at the end of the period. If a grievance is filed, the member's suspension, if any, continues until the resolution of the grievance. If the grievance is not upheld the member's employment is terminated. As provided in Article 24.1, the member's non-salary benefits are not to be withheld while he or she is suspended. If the member is suspended with pay, the member is responsible for the normal share of benefit costs. If the suspension is without pay the University will assume payment of all costs but if salary is subsequently restored the member will be charged the normal share of costs from the effective date of suspension.

- 21.1.4.8 All correspondence to the academic staff member required by this clause shall be delivered directly to the member where convenient and, in other cases, forwarded by registered mail, to the last known address of the member. The copies for the Faculty Association shall be delivered to the Chair or, in the Chair's absence, to an

officer of the Faculty Association.

21.1.4.9 Failure to act within the time limits set out above shall constitute waiver of rights. If a party, acting in good faith and for sufficient cause, clearly was unable to meet these time requirements, the delay may be excused.

21.2 Discontinuance of employment or lay off may be effected only in accordance with the provisions of this agreement.

ARTICLE 22 - CLEARANCE UPON TERMINATION

- 22.1 Upon termination of employment the final salary cheque shall be issued within five working days of the last day on payroll, or as soon thereafter as all financial and material obligations of the academic staff member to the University are satisfied. Such obligations may include, but are not limited to, return of keys, identification cards, library books, audio-visual and other equipment, reimbursement for travel advances, and goods and services.

ARTICLE 23 – GRIEVANCES

23.1 Grievance Defined

Should any dispute or difference arise between the University and the Faculty Association, or any of its members, concerning the meaning, interpretation, application, or alleged violation of the terms of this agreement, the difference shall be settled promptly in accordance with the procedure outlined below.

Notwithstanding the above, any procedure prescribed in this agreement which contains a specific appeal process binding on both parties shall not be subject to the grievance procedure.

An academic staff member may be accompanied at any stage of the following procedures by a representative of the Faculty Association.

23.1.1 Grievor is defined as the academic staff member(s), Faculty Association, or University initiating a grievance.

23.2 General

23.2.1 The Faculty Association shall have the right to be represented at all steps of the dispute resolution process and to represent the grievor at all steps.

23.2.2 The time limits specified in this article may be waived by mutual agreement between the Faculty Association and the University.

23.2.3 Nothing in this agreement prejudices the right of an academic staff member of the Faculty Association to exercise other rights which he or she may have at law.

23.2.4 The parties may call witnesses and be accompanied, or represented, by colleagues or counsel.

23.3 Informal Discussion

Before a grievance is filed by either party, every attempt shall be made to

settle the dispute by informal discussion in the presence of a mutually agreed upon Elder. An academic staff member may present a verbal complaint to the Associate Dean or to the Vice-President (Academic), as soon as the grounds for the complaint are known.

Either party has the right at any time to indicate that the informal discussion is at an impasse, and shall inform the other party in writing of their decision to end the informal discussion

23.4 Stage One

If the dispute or difference cannot be settled informally either party may, within thirty calendar days of the conclusion to informal discussion, present a formal written grievance to the other party. In unusual circumstances, where the grievor could not reasonably have been expected to have learned of the incident, these time requirements shall be waived.

A grievance by the Faculty Association shall be forwarded to the Vice-President (Academic). A grievance by the University shall be forwarded to the Chair of the Faculty Association. The grievance shall:

- 23.4.1 specify which section of the contract has allegedly been violated;
- 23.4.2 specify what remedy or remedies the grievor believes to be sufficient to correct the alleged violation;
- 23.4.3 be signed by the employee(s) affected, and by a duly authorized officer of the Faculty Association on the one hand, or by the Supervisor of Human Resources on the other hand.

On behalf of the University, the Vice-President (Academic) shall (at Stage One) respond in writing to the grievance within fourteen calendar days of receipt of the written grievance. In the meantime, the Faculty Association or the Vice-President (Academic) may require a meeting. Either party may require the aggrieved person(s) to be present at such a meeting.

On behalf of the Faculty Association a duly authorized officer of the Faculty Association shall similarly respond in writing within fourteen

calendar days to a grievance submitted by the University.

23.5 Stage Two

If the Vice-President (Academic), does not render a written response within the time limit, or if the response is unsatisfactory, the Faculty Association may, within fourteen days of the expiration of the time limit for response to Stage One, submit the grievance to the Supervisor of Human Resources. The Supervisor of Human Resources shall be responsible for seeing that a written response is submitted to the Faculty Association within fourteen calendar days of receipt of the grievance.

In the meantime, the Faculty Association or the Supervisor of Human Resources, on behalf of the University, may require a meeting between the Faculty Association and the appropriate University officers.

23.6 Arbitration

In the event that any grievance has not been settled through the procedure outlined above, either party may, within fourteen days, submit the grievance to an arbitration board (the University after Stage One, and the Faculty Association after Stage Two).

Such a dispute or difference between the University and the Faculty Association or any of its academic staff members concerning the interpretation or an alleged breach of this agreement, which is not settled at the grievance stages, shall be settled by arbitration between the Faculty Association and the University in accordance with the provisions of the Trade Union Act.

Except in cases dealing with Career Development of academic staff members (see Article 19.9.1) the Arbitration Board shall consist of three members who will be selected as follows: the University and the Faculty Association shall each appoint their own board member within seven working days of notice being given by either party for the establishment of the Board. The University and the Faculty Association shall select, from a previously agreed upon list, within seven working days, a third member, who has reasonable knowledge of academic affairs, to act as the Chair of the Board. Once appointed, the Chair shall then invite an Elder to act as his

or her advisor. The Elder shall be expected to guide the arbitration process along traditional First Nations methods of conflict resolution.

In the event of failure to agree on a Chair within the time prescribed they shall notify the Chair of the Saskatchewan Indian Personnel Management Commission who shall name a Chair who has knowledge of academic affairs.

The University shall provide appropriate space for the hearing of grievances and arbitration cases. The parties may call witnesses and be accompanied, or represented, by colleagues or counsel.

The Board, having been formed by the above procedure, shall meet, hear the evidence of both parties, and render a written decision. The decision of the majority of the Board on the matter at issue shall be final and binding on both parties, but the Board shall not be empowered to add to, subtract from, alter or amend the collective agreement in any way.

The Board of Arbitration may refuse to deal with a technical objection if, in its opinion, the technical objection has been made solely for the purpose of avoiding a substantive issue. Technical deficiencies which relate to time may be waived by the Board if such deficiencies occur as a result of actions, errors or omissions made in good faith.

The fees and expenses of the Chair shall be shared equally between the parties. Each party shall be responsible for its costs, including fees and expenses of its witnesses and nominee on the Board.

ARTICLE 24 - WARNINGS, REPRIMANDS AND SUSPENSIONS

24.1 The University will take disciplinary action as the situation warrants. This will involve, but not be restricted to, verbal warnings, verbal reprimands, written warnings, written reprimands, partial or full suspension of duties. In the case of suspension, the President shall notify the academic staff member in writing, stating the duration and conditions of the suspension, and providing a complete statement of the grounds for the action. Normally, a suspension shall not exceed thirty days. Any disciplinary action undertaken by the University is subject to the grievance procedures as outlined in Article 23 - Grievances.

While on suspension the academic staff member's benefits, with the possible exception of salary, are not to be withheld.

- 26.5.4 The University may award grants of up to 80 per cent of the member's salary to assist with the costs associated with educational advancement. Other remuneration which the academic staff member may receive during the education leave, including funds provided by governments in accordance with First Nations rights to education, is limited to an amount which brings the total to one hundred per cent of normal salary, exclusive of grants for research purposes and monies obtained for authorized outside professional activities, plus

travel and related expenses for the member (unless claimed as part of the education grant defined above), spouse and dependent children. The University may recover any amount in excess of 100% obtained by the member in contravention of this article. The University assumes no responsibility for the taxation status of education grants.

26.5.5 The recipient of an education leave grant must agree to return to duties at the University for a period equal to the time the academic staff member was absent, or to reimburse the University for the full amount of the grant received. If a member returns to the University for a period of time less than the length of the leave, the reimbursement shall be prorated accordingly. The member shall return to the staff of the University at the same academic rank and salary which he or she held at the beginning of the leave. While on leave the member shall receive any generally applicable salary increases; however, in normal circumstances the member would not be eligible to receive a career growth increment for that time spent on education leave.

26.5.6 **Cancellation:** An educational leave may be cancelled by the applicant up to two months prior to the commencement of the leave.

26.5.7 Any of the above specifications may be waived by mutual agreement between the Vice-President (Academic), the academic staff member, and the Faculty Association.

26.6 **Other Leaves**

26.6.1 **Leave for Traditional Ceremonies**

Upon written notice to the appropriate Associate Dean, an academic staff member may be granted up to seven (7) working days with pay annually for the purpose of participating in traditional First Nations ceremonies. A University policy on this will be developed in consultation with First Nations Elders and academic staff members.

The academic staff member shall make every attempt to give the longest possible notice, and shall actively cooperate in arrangements for the uninterrupted continuation of the work of the academic unit.

26.7 **Leave to Seek Nomination and Election to Political Office**

26.7.1 Upon written request to the Vice-President (Academic), the University shall grant to an academic staff member leave of absence without pay to seek nomination as a candidate, and to be a candidate in municipal, provincial, federal or First Nations government.

26.7.2 The academic staff member shall inform the Vice-President (Academic) when deciding to seek candidacy, and shall make every attempt to give the longest possible notice, and shall actively cooperate in arrangements for the uninterrupted continuation of the work of the academic unit.

26.7.3 Should the academic staff member be successful in his or her bid for office, the member may be required to resign, or to take partial or complete leave without pay depending upon the requirements of the member's responsibilities. Such resignation or leave shall be effective the date he or she takes office. The leave shall be for a specific term and may be renewed.

26.7.4 Should the academic staff member be unsuccessful in his or her bid for office, he or she may return to his or her academic position he or she held at the time leave was granted.

26.8 **Discretionary Leaves**

The Vice-President (Academic) in consultation with the Associate Dean, and the President, may grant or extend any leave to an academic staff member whether with pay, with partial pay, or without pay.

26.9 **Leave of Absence Without Pay**

26.9.1 Application for leave of absence without pay shall be limited to two years and shall be directed through the appropriate Associate Dean. The academic staff member and Associate Dean shall present to the Vice-President (Academic) a proposal outlining the terms and conditions of the member's reinstatement following leave without pay.

- 26.9.2 The Vice-President (Academic), in consultation with the appropriate Associate Dean, shall have the right to accept, deny, or grant modified or conditional acceptance to any or all applications for leave of absence without pay.
- 26.9.3 Upon return to employment from leave of absence, the Associate Dean shall place the academic staff member in the position previously held by him or her or a position mutually agreeable to both parties. In no case shall the member return to staff at lower salary, benefits, or seniority than when the leave began.
- 26.9.4 The academic staff member may be eligible for partial employment related benefits during his or her leave of absence as specified in the leave agreement.
- 26.9.5 All academic staff members shall be required to sign a Leave Agreement prior to commencement of leave for a duration greater than one month.

26.10 **General**

- 26.10.1 Time spent on maternity leave, parental leave, or on jury and witness duty, shall count as service with the University in respect of salary adjustments, and waiting period for sabbatical eligibility.
- 26.10.2 Time spent on sabbaticals or education leave shall count as service with the University in respect of salary adjustments.
- 26.10.3 Time spent on other leaves as specified in this article does not normally count as service with the University in respect of salary adjustments, waiting period for sabbatical eligibility, or any other career consideration, unless it has been stated otherwise in writing at the time the leave is granted.
- 26.10.4 Prior to the granting of any leave, the University shall clarify and state in writing the effect on career considerations and benefits (such as salary adjustments, pension contributions, group benefits, eligibility for leaves, etc.).

26.11 **Election Leave**

26.11.1 Academic staff members who are, or become, eligible to vote in a First Nations election shall be granted one (1) day's leave with pay on the day of the election.

26.11.2 Academic staff members who are eligible to vote in a civic, provincial or federal election shall be granted four consecutive hours immediately prior to closing of the polls.

ARTICLE 27 – HEALTH AND SAFETY

27.1 The University, academic staff members and the Faculty Association share a commitment to creating and maintaining workplaces that are healthy and safe for all employees and the public, and share a commitment to cooperate in resolving health and safety concerns expeditiously. To that end, the University shall maintain policies and/or procedures for the health and safety of employees during working hours. These policies and procedures will only be changed in consultation with the Occupational Health and Safety committees and upon notification to the Faculty Association, and shall comply with the provisions of the *Saskatchewan Employment Act*, *Occupational Health and Safety Regulations*, and other applicable legislation, as they may be amended from time to time. Policies and/or procedures pertaining to Occupational Health & Safety can be viewed online at www.fnuniv.ca/policies.

27.2 The *Saskatchewan Employment Act* defines occupational health and safety as:

- i) the promotion and maintenance of the highest degree of physical, mental and social well-being of workers;
- ii) the prevention among workers of ill health caused by their working conditions;
- iii) the protection of workers in their employment from factors adverse to their health;
- iv) the placing and maintenance of workers in working environments that are adapted to their individual physiological and psychological conditions; and
- v) the promotion and maintenance of a working environment that is free of harassment (in accordance with the provisions of Article 5 – Respectful University).

27.3 **Occupational Health and Safety Rights of Employees**

Academic staff members have three basic rights under Part III of the *Saskatchewan Employment Act* that are:

The right to know the hazards at work and how to control them;

The right to participate in finding and controlling workplace hazards; and
The right to refuse work that they feel is unsafe or will create a health hazard.

27.4. **Exercising the Rights**

27.4.1 **Orientation and Training**

In accordance with the right of academic staff to know and to control hazards at work, the Parties commit to orientation and training that includes:

- (i) The University will provide first aid supplies and equipment at each location, and will ensure that a University employee is trained in a certified first aid course, at the University's expense.
- (ii) Training for members serving on the OH&S committee as outlined below.

The Parties commit to identifying and improving health and safety concerns for individuals working during non-peak hours and at remote sites.

27.4.2 **OH&S Committees**

In accordance with the right of academic staff to participate in finding and controlling hazards at work, academic staff shall have representation on the Occupational Health and Safety Committees.

The academic staff bargaining unit will have one representative per location on the Occupational Health and Safety Committee(s).

The University will provide to the academic staff committee members access to a list-serve in order to communicate health and safety information.

The role of each committee includes, but is not limited to:

- developing and recommending health and safety policies and safe work procedures;
- recommending and promoting education and training programs; and
- receiving concerns and complaints from academic staff members on matters affecting health and safety of the workplace, gathering information pertaining to the complaints, investigate, and make recommendations to management and the member for the resolution of the complaint. Complaints must be made in writing by the member, outlining the health or safety concern and proposed remedies, and sent to the chair of the committee, with a copy to the Human Resources Supervisor and the Faculty Association.

The members of the committee(s) will receive training at the University's expense. Such training will be considered leave with pay.

The committee(s) will investigate a complaint in accordance with the timelines established by the Saskatchewan Employment Act and The Occupational Health and Safety Regulations and forward their report and recommendation for resolution of the complaint to the Human Resources Supervisor, with a copy to the complainant and the Faculty Association.

The committee(s) shall make quarterly reports to the University and the Faculty Association reporting all incidents or complaints that were filed and investigated, and the recommendation for the resolution. The University will distribute the reports throughout the University community.

All correspondence will occur in accordance with Article 13 – Correspondence.

(i) Meeting times

- The University will make reasonable efforts not to schedule meeting times of the committee during teaching hours of the academic staff members on the committee(s).

(ii) Travel Expenses

- When committee related travel is required or requested, and approved by the Human Resources Supervisor, academic staff shall be entitled to receive travel expenses as per the University's Travel Expenses Policy.

27.4.3 Right to Refuse

In accordance with the right of academic staff to refuse work that the employee feels is unsafe or may create a health hazard, academic staff members should remove themselves and others from immediate danger and then do the following:

- i) Inform the member's supervisor of their concerns.
- ii) The committee will investigate each refusal and make a decision if such refusal is warranted. The committee shall report its findings to the University, and if necessary make recommendations for corrective action. If such action is not warranted, the committee will report that to the University, and will meet with the affected member(s) and report to them the reasons for its decision. If the employee believes the workplace is still unsafe or may create a health hazard, an investigation can be requested from the Occupational Health and Safety Division.
- iii) The University may reassign the academic staff member to other temporary duties during the committee's investigation, with no loss in pay or benefits to the member. If the University takes action against the member, such as discipline, demotion, transfer, etc., such action will be considered discriminatory unless the University shows good and sufficient other reason for taking such action.

ARTICLE 28 – INTELLECTUAL PROPERTY

28.1 General

Intellectual property (IP) means any result of conceptual or artistic activity that is created by an academic staff member and can be owned by a person. This includes all works that can be protected under copyright, patent, trademark, or other equivalent legislations.

The University encourages academic staff members to make the IP freely accessible to the academic community and to the general public. The University and the Faculty Association recognize that in specific circumstances it may be in the public interest to limit access.

The University is committed both to the development of strong Indigenous academic research and researchers and to the protection of the heritage of Indigenous Peoples. The University adheres to the following principles with respect to the ownership and dissemination of Indigenous knowledge:

- 28.1.1 The effective protection of Indigenous Peoples' heritage will be of long-term benefit to all.
- 28.1.2 Indigenous Peoples are the primary guardians and interpreters of their cultures, arts, and sciences, whether created in the past or developed by them in the future.
- 28.1.3 Indigenous Peoples' ownership and custody of their heritage is collective, permanent, and inalienable as prescribed by the customs, rules, and practices of each people.
- 28.1.4 To protect their heritage, Indigenous Peoples must exercise control over all research conducted within their territories, or which uses their people as objects of study.
- 28.1.5 The free and informed consent of the traditional owners should be an essential precondition of any agreements that may be made for recording, studying, using, or displaying any Indigenous Peoples' heritage. The traditional owners must be determined in accordance

with Indigenous Peoples' own customs, laws, and practices.

28.2.1 Ownership

The University endorses the lively interest of academic staff members in research, scholarship, and professional activities and will assist and enhance their ability to pursue these aims.

In the absence of a written agreement to the contrary, academic staff members are the owners of all intellectual property, and all rights (including copyright, patents, trademarks, and other equivalent rights) to intellectual property, that they create in the course of their employment at the University. IP shall not be used or distributed by the University without the express written consent of the member(s) who own it, except as stated herein after.

28.2.2 Copyright

The copyright to any works of art, printed materials, films, slides, videotapes or similar materials including lecture notes are vested solely in the academic staff member who created them or caused them to be created, except as stated hereinafter. The copyrights to materials such as manuals, slides, films and tapes produced at the direction of the University are vested in the University.

The University shall retain the right to internal use of unpublished course materials including examinations and course outlines, digital media, audio and video tapes, films, slides and photographs, and computer programs that academic staff members have collectively developed at the direction of the University and in support of the University's academic programs. Upon initiation of the development of the materials, the University shall state, in writing, to members involved in developing the materials, its intention to exercise this right. Members who decline involvement in developing such materials shall not be penalized for this in the evaluation of performance of duties or in the performance review process.

28.2.3 **Patents**

The patent for any work or invention which is produced by an academic staff member, and which is unrelated to a member's discipline or employment at the University, is vested solely in the member, except when to do so violates the principles set forth in Article 28.1. The University waives, disclaims and abandons any interest in, or claim to, such works or inventions. When a member enters into ownership, partnership, contract or similar agreement with a corporation or organization for the purpose of commercial exploitation (licensing, patenting or marketing) of devices or procedures produced by the member and related to the member's discipline or employment at the University, the member must have written authorization from the University. Such authorization shall not be unreasonably withheld. If agreement between the member and the University respecting the University's participation in the proceeds cannot be reached within three months of the application by the member, an internal tribunal will be struck to resolve the dispute. The tribunal will consist of one member appointed by the University, one member appointed by the Faculty Association and a third member agreed upon by the other two. The tribunal will be charged with selecting one of the two final positions. The tribunal's decision shall be final and binding on both parties.

28.2.4 Where there may be any question concerning the ownership of a patent or copyright, the academic staff member has an obligation to clarify the matter with the University, before the project in question is undertaken.

ARTICLE 29 - FINANCIAL EXIGENCY

- 29.1 The parties agree that the process of long-range planning should obviate the possibility of a financial exigency occurring. The parties further agree that in the event of a financial exigency, in view of the ramifications to the careers of academic staff members, an orderly and equitable way of dealing with the situation is essential.
- 29.2 As soon as the University perceives that a financial exigency exists, it will convey this information to the Faculty Association in writing, indicating the nature of the problem, its probable magnitude and impact on the careers of members of the academic staff.
- 29.3 29.3.1 The Faculty Association, through its representatives, shall be fully consulted by the University officers concerned and shall be provided with detailed financial and budgetary information together with such long-range projections as may be prepared by the University in the course of its long range forecasting and planning process.

The parties agree that the following steps shall be taken before there is any reduction in the number of academic staff members;

- 29.3.1.1 reduce non-academic expenditure equitably to the extent feasible;
- 29.3.1.2 reduce academic non-salary expenditure to the extent feasible;
- 29.3.1.3 make no further term appointments for the year in which the financial problem is predicted, except to meet critical program needs which cannot otherwise be met;
- 29.3.1.4 offer early retirement to appropriate academic staff members under the terms of the pension plan;
- 29.3.1.5 as required, assign academic staff members partly or wholly to vacancies in other areas of the University,

within their academic competence, with no reduction in rank or status;

29.3.1.6 make no further appointments unless a position cannot be filled by an inside transfer and is necessary to maintain the proposed level of operation;

29.3.1.7 undertake other similar measures where possible, for example, job sharing, wage and benefits freezes, voluntary wage and benefits rollbacks.

29.3.2 The parties agree that decisions about financial exigency, both the determination whether an exigency exists and how to respond to it, shall be based to the greatest extent possible upon consensus in the spirit of traditional First Nations values - including communication, collaboration, consultation, sharing, and compromise - within a framework of tolerance, humility and mutual respect.

29.3.3 When the parties have agreed which of the above steps will be undertaken, they shall attempt to jointly determine whether a financial exigency continues to exist, its total amount, and the proportion to that amount which is to be borne by reduction in the number of academic staff members.

29.3.4 The University shall decide which of the above steps will be undertaken, and shall advise the Faculty Association its proposed course of action and whether such course shall have the effect of reducing or eliminating the financial exigency, and the time period within which this may occur. In arriving at its decision, the University shall fairly and equitably distribute the impact of the financial exigency depending upon whether cuts are made vertically or horizontally in the structure of the University. The Faculty Association may make recommendations to the University in terms of pursuing alternative courses of action, and the University shall, in good faith, receive said recommendations.

29.3.5 The Faculty Association shall be entitled to receive, in writing, information concerning the nature of the financial exigency, the

deficiency created by the financial exigency in monetary terms, the extent to which the financial exigency will be borne by reduction in the number of academic staff members and the portion to be borne by each faculty, or similar academic unit.

- 29.3.6 If the University and the Faculty Association agree that there is no exigency, the University will proceed with the jointly planned procedures, and the matter of exigency ends.
- 29.3.7 If the Faculty Association and the University agree that an exigency exists and further agree on the portion to be borne by reduction in the number of academic staff members, the University will proceed with consequent notices to the academic staff members concerned, according to the procedures specified in this Article.
- 29.4 If there is a disagreement between the Faculty Association and the University, and if the Faculty Association requests it, an Exigency Review Committee will be established. One member shall be named by the Chair of the Faculty Association and one member shall be named by the President of the University and they will jointly select a chair. If the President and the Faculty Association Chair cannot agree upon a chair, one of the two will be selected by lot who will have the right to name the chair. The purpose of the committee is to make a recommendation to the President concerning Article 29.6.
- 29.5 The report of the Exigency Review Committee shall be submitted to the President within seventy-five calendar days of the date of the President's letter to the Faculty Association informing it of the financial exigency.
- 29.6 The President shall, within 30 days, review the report and forward to Chair of the Faculty Association a written statement setting forth:
 - 29.6.1 whether a financial exigency exists;
 - 29.6.2 the total deficiency expressed in monetary terms;
 - 29.6.3 the portion, expressed in monetary terms, which will be borne by reduction in the number of academic staff members;

29.6.4 the portion to be borne by each faculty or similar academic unit.

29.7 A deficiency, expressed in monetary terms, shall be allocated to each department and similar academic unit and the President shall notify the Faculty Association accordingly of the recommendation which is to be made to the Board. The President's notification shall include specific proposals for meeting the deficiency, including proposals about any appointments to be terminated, with the reasons clearly given for such proposals. Such reasons shall be consistent with the long range plans for the University and to the greatest extent possible with the collegial consensus about how to respond to the exigency. Such reasons shall not be merely financial nor based in a mechanical way upon juniority or seniority.

Individuals, units, departments have 30 days from the receipt of the President's notification to respond, before the decision to discontinue is finalized by the Board upon the recommendation of the President.

In the event of a financial exigency which will result in vertical or horizontal cuts, academic staff members shall be given the maximum amount of notice possible. Members on probationary appointments shall receive the balance of the current semester plus no less than 6 weeks for each year of service to a maximum of 9 months; members with permanent appointments shall receive the balance of the current semester plus 6 weeks for each year of service to a maximum of 12 months. Members who receive the minimum notice may choose to leave following completion of current teaching obligations and be compensated in cash for the balance of the notice period, in recognition of the seriousness of the career disruption involved.

- 31.3 Academic staff members may refuse to cross a picket line arising out of a labour dispute at First Nations University of Canada. Academic staff members shall not be subject to disciplinary action but will have pay deducted for the period of employment for which they refused to cross the picket line or failed to perform their assigned duties in the normal way unless alternate arrangements are approved in advance by the Vice President Academic. Academic staff members will not be required to perform duties beyond their normal responsibilities as a result of a labour dispute.
- 31.4 In event of a lockout or strike involving the bargaining unit covering academic staff members, members of other bargaining units will not be required to assume any duties that fall within the appropriate section of Article 18 – Performance of Duties.

1. **Parity**

While recognizing the distinctive mission and identity of the FNUniv, as well as the fact that the FNUniv receives the greater portion of its public funding from the federal rather than the provincial government, the parties support the principle that academic staff members at the University should be fairly and equitably treated with regard to salary. To that end, this agreement moves the University's salary scales to parity with those of academic staff members at the University of Regina as of July 1, 2016. The parties agree to continue discussions about how the principle of parity may be addressed in the future, recognizing that the financial sustainability of the institution must be ensured.
