

At BASF, we create chemistry through the power of connected minds. By balancing economic success with environmental protection and social responsibility, we are building a more sustainable future through chemistry. As the world's leading chemical company, we help our customers in nearly every industry meet the current and future needs of society through science and innovation.

We provide a challenging and rewarding work environment with a strong emphasis on process safety, as well as the safety of our employees and the communities we operate in and are always working to form the best team—especially from within, through an emphasis on lifelong learning and development.

And we are constantly striving to become an even better place to work. BASF has been recognized as one of Canada's Best 100 Employers in 2021 and was honored as one of Canada's Safest Employers Award. Come join us on our journey to create solutions for a sustainable future!

Field Compliance Associate

Contract Duration: 4 - 6 months (Summer)

Location: Saskatoon and Sherwood Park

Responsibilities:

- As a Field Compliance Associate you will provide support to the compliance monitoring program, aiding in the advancement of new traits.
- You will have responsibilities for compliance monitoring and maintenance of trial site isolation areas and post-harvest sites to a high standard.
- Responsibilities include weekly monitoring of isolation areas and post-harvest sites for the presence of prohibited species and maintaining the sites to a standard expected by our organization and the Canadian Food Inspection Agency using techniques such as spraying, tilling, burning and mowing.
- A key component in this role is ensuring standard operating procedures are maintained and followed.

Qualifications:

As the successful candidate:

- You will possess strong agronomic competence through an agricultural background and a high level of attention to detail.
- You must demonstrate problem solving skills and the ability to be flexible and modify plans as situations change.
- You must be able to work in a group as well as be self motivated to get solo tasks accomplished.
- Mechanical aptitude and experience operating equipment is an advantage.
