Parking Services

paybyphone®

The *PayByPhone* app is the preferred method as it features options such as expiry reminders, the ability to extend your parking time remotely, and emailed receipts.

Students, faculty, staff, and visitors can now skip the pay stations and purchase parking in moments with PayByPhone at the University of Regina. Acting as an alternative to cash payments, the mobile parking app offers a convenient way for drivers to pay, while allowing the university's parking services to easily manage these locations on campus.

In addition to making payments easier, the app provides text reminders prior to a session expiring, and the ability to extend a parking session remotely.

Drivers who are pressed for time can even begin a parking session without registering for the app. However, without registering for the app does not store your parking history and requires to enter credit card number each time you buy a parking session.
